

# Church Security and Safety Team Training

[gettrainedbeready.com](http://gettrainedbeready.com)

Church shooting incidents are on the rise. Between 1980 and 2005, a 25 year period, according to the National Church Shooting Database, the total shooting incidents in the US were 137. Fortunately, most of those incidents resulted in no deaths. On the other hand, in the 9 year period between 2006 and 2016, the number of incidents at Christian churches was 147.

While the government and other agencies take care of why those shootings take place, let us help train you on how you can prevent deaths if an event of that nature takes place. We have built our Church Security and Safety Team Training program specifically for that purpose as well as other emergencies including weather or health related incidents. We can help your team with live fire exercises, scenario based active shooter events, team building exercises, church security plans, and standard operating procedures. In the event of an incident, your team won't be **WAITING** on first responders. Your team will **BE** first responders. Get them Trained. Get them Ready.

# How Our Church Security and Safety Team Program Works

**Here are some of the things we can include in our program:**

- Helping you get stakeholders and leadership onboard with a program to include natural and man made disasters
- Assessing the needs of your facility and congregation - building a plan that works for you
- Setting up events for active shooter training based on a variety of scenarios
- Help design and articulate a detailed church security plan
- Define routine procedures to secure the church on a daily basis
- Conduct team building exercises for an internal culture that's free of communication bottlenecks
- Help choose (and simplify) equipment for the task at hand including firearms and related gear, communications equipment, first aid, CPR certification, and basic trauma kits and training on how to use them, and other safety interrelated items
- Live fire exercises and defensive shooting out on the range
- We work side by side with you to come up with the most efficient and effective security plans for your house of worship.

# Why GTBR Church Security and Safety Team Program

Here are just some of the reasons we believe Get Trained Be Ready's Church Security and Safety Team Program is the best for you:

- We can come to you if you choose to host us, or you can come to us
- We can help facilitate a single training event with more than one church in order to maximize training and minimize costs
- We can work with small churches with no security teams and large churches with existing safety teams
- You can trust our credibility as we are ALICE Certified Instructors, ALERRT Instructors, NRA Advanced and Personal Protection Pistol Instructors, and Intuitive Defensive Shooting Instructors
- Our complete course is a combination of in-class instruction, on-range training, and on-site scenario training within your house of worship
- We go beyond completing the course and advise you on your existing safety and security concerns as well as help you with standard operating procedures
- We help leadership teams, deacons, elders, pastors, and other stakeholders understand the value of this program and provide guidance on how to support these lifesaving initiatives
- Moreover, we listen to you and can fine-tune our program to meet your specific needs

# Saving Lives Is Not Optional

After completing a Church Security and Safety Team Training program with Get Trained Be Ready, you will have the peace of mind that your church is much better prepared to react to unanticipated situations. Quick response to medical emergencies, natural or man made disasters, or other incidents, can help save lives or minimize violence. Should you opt to continue with our ongoing training opportunities, your safety or security team will always be up-to-date with the best techniques and methods to mitigate violent incidents and respond appropriately to other life threatening events. As a result, you are more likely to be in a position to prevent security issues before they take place and you will be better equipped to deal with them if they do occur.

Take initiative and let us help you with your Church Security and Safety Team Training to make your church a place of worship, not violence. Have a plan. Practice the plan.
